USAGE IS SIMPLE

1. Take out your Ipod / Mp3 player or Hi Fi and select your favorite tracks. Music is a great influencer of temperament; as you listen to music, you instantly take on the mood of the rhythm.
2. Plug in the AC Adapter to activate the scalar engine. Flick the switch. The blinking LED indi-

cates its operation. For twice the power, you may plug your LongHorn into an mp3 player. Sound further programs and stimulates the quad tachyon resonating cells.

3. Kick back and relax. What happens next is magic: the music stimulates the tachyon resonator cells within the unit and causes a pulsation of bioenergy (1) . This pulsation follows the exact rhythm of the music. Play lively music and you bombard yourself with lively chi energy! Play restful music and gradually enter a tranquil state!
4. Close your eyes and Visualize what you want to happen. Fill yourself with conviction that your desire is already occurring. Then press the S4 switch. (Consult the RAD-X manual for more details).
5. Fine tune the unique number using the S1 and S2 keys if your gut feel doesn't sit well with the number that represents your desire.
6. Place a symbol (drawing or object) of your desire on the device.
7. Press the S5 key (consult the RADX manual) to initiate the Trend Explode Function.
8. Walk away and leave the operation for a day. Fusion of symbols and energy tilts probabilities to your favor.
