

# Tachyon Crystals

Manufactured by Divining Mind LLC  
Distributed by Exceed Global Limited LLC

## What is is

Tachyons are subatomic particles similar to quarks that travel faster than light. These particles meld with physical matter in various concentrations throughout the universe. Also called prana, orgone and chi, tachyons are building blocks for life.

Tachyonization is a technological process that impregnates physical matter with an increased quantity of tachyons and thus it permanently changes quantum properties of atomic nuclei which compose that matter. A tachyon crystal is said to resonate with high vibrational frequencies of rarified chi energy and this is highly bioavailable for human absorption.

## Tachyonization Process

Chemical composition is not altered, the change occurs at subatomic level. Tachyon technology greatly increases the efficiency of food supplements, minerals and revitalized water. Because it diminishes the entropy of physical matter it stunts the aging process and fortifies the immune system. It further clarifies chaotic EM fields in the

environment within a maximum range of 20m radius. Do you work near computers, cell sites and other noxious locales? A tachyon crystal will buffer against the negative force clawing at your energy fields. The energy is soothing and enlivens the energy matrix which shapes your mental, emotional, etheric states of mind. All this impacts your physical health and well-being. Since it harmonizes all electromagnetic emissions it is an excellent shield against all forms of electrosmog.

### Benefits

Tachyons are known by practitioners of arts like Yoga to positively influence our physical and energetic bodies. Meditation becomes easier, intuition skyrockets and heightened mental focus can sometimes lead to the awakening of latent ESP talents.

Tachyons, have an impact on the aura. Energy tools such as kirlian photography, Bovis Biometers, Vesica pendulums and Egely Life meters quickly indicate a strengthened human auric field when fortified with a tachyon crystal.

### Usage

Objective	Minimum Exposure Time Required	Comments
Charge a glass of water	3minutes	8 ounces
Clarify stagnant energy in a room	4 hours	25 square meter room. Dowse to verify change
Boost the operations a radionic device	<1 minute	
Amplify manifestation / meditation	Duration of manifestation exercise	

### Technical Details

Characteristic	Small Crystal	Large Crystal
Range of influence	5- 10 meter radius	20-25 meter radius
Anti Electro Smog	Yes	Yes
Aids Manifestation	Yes	Yes
Number of radionic programs it can hold	3-7	8-19. Dowse for exact.
