### USAGE IS SIMPLE

1. Take out your Ipod / Mp3 player or Hi Fi and select your favorite tracks. Music is a great influencer of temperament; as you listen to music, you instantly take on the mood of the rhythm.
2. Plug your Serenity1000 into the mp3 player.

**The Serenity shields you from computer strain**

3. Kick back and relax. What happens next is magic: the music stimulates the tachyon resonator cells within the unit and causes a pulsation of bioenergy (1) . This pulsation follows the exact rhythm of the music. Play lively music and you bombard yourself with lively chi energy! Play restful music and gradually enter a tranquil state!
4. For more functionality, we suggest you download the freeware NCHTONER software from [http://www.vego.nl/14/07/04/14\\_07\\_04.htm](http://www.vego.nl/14/07/04/14_07_04.htm) or [xtrememind.com/nchtoner.exe](http://xtrememind.com/nchtoner.exe) This software pulses pure tones from 1Hz to 5000Hz. In conjunction with the frequencies found at [/www.xtrememind.com/Frequency\\_list.htm](http://www.xtrememind.com/Frequency_list.htm) , you can create any mental state you desire!
5. Low frequencies (4Hz to 9Hz) are ideal for meditation and accelerated learning. Use frequencies from 11Hz to 15Hz to explode your sports performance.
6. Into manifestation, magic and mental expansion? You want to try 4Hz. Give it a shot.... And surprise yourself!
