THE ULTIMATE EMF PROTECTION PACKAGE

WHY THE NEED FOR EMF PROTECTION?

ARE WE BALANCED?

The "human energy Bio field", surrounds and permeates the physical body. We, call it "Prana", Greeks know it as "Pneuma". Japanese refer to it as "Ki". It is present within every living thing.

When our Bio field is out of balance, we're out of balance. Disease, fatigue, and apathy all reflect a compromised Bio field. When something improves our Bio field, such as the Tensor rings it can increase our mental and physical performance, reinforce our natural immunity to stress and enhance our sense of well-being.

IMPACTS ON BIO FIELD

EMF Electromagnetic Field (EMF) is the largest threat to your Bio field. ***The world suffers from "electromagnetic contamination", "e-smog", or "Electromagnetic pollution".***

Constantly we are being bombarded with frequencies that wear us down. Every day, our Bio fields are damaged by: Computers, Wi-Fi, Cell Phones, Power Lines, Emotional Stress, Televisions, HARP, Satellite, Communication towers of all varieties, Geomagnetic and geopathic stressors

ALL WIRELESS DEVICES EMIT MICROWAVE RADIATION—a known biological hazard

EVERY TIME YOU USE A WIRELESS DEVICE, YOU ARE EXPOSED TO MICROWAVE RADIATION.

The World Health Organization (WHO) labels this radiation a Class 2B possible cancer-causing agent in the same category as lead, DDT, and chloroform. Cell phones, cordless phones, tablets, laptops, 'smart' meters—the more you are around these devices, the more radiation you get.

MICROWAVE RADIATION IS HARMFUL TO YOU. Scientists link this radiation to diseases, both long-term and short-term: cancer, infertility, DNA damage, damage to fetuses, sleep problems, memory and behavior problems, heart problems and many others.

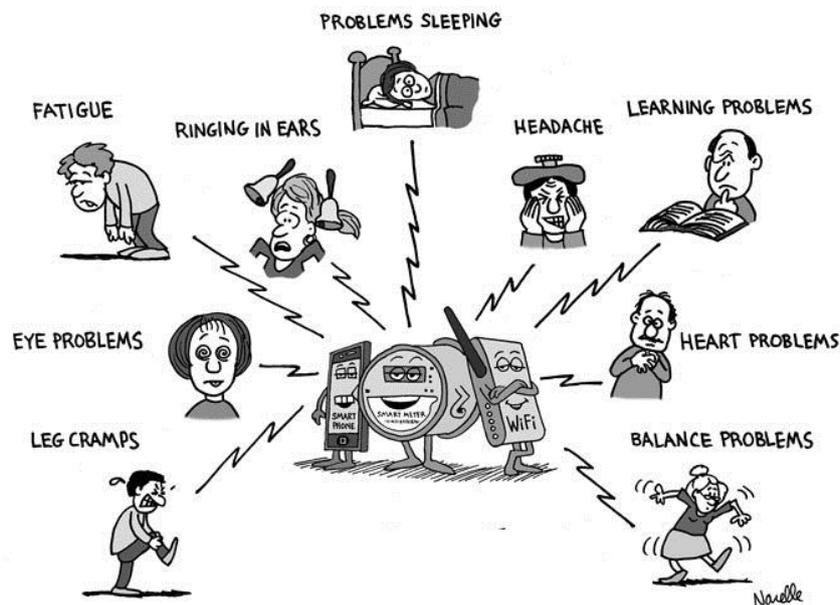

MANY PEOPLE HAVE BECOME "ELECTRO-HYPER-SENSITIVE" (EHS) and cannot tolerate even low exposures, seriously impacting their health, job, housing, and social lives.

GOVERNMENT REGULATIONS DO NOT PROTECT YOU. FCC guidelines were written decades ago and ignore current science linking microwaves to human disease. Cities like San Francisco have tried to introduce mandatory health warnings on cell phones but the wireless industry has suppressed these efforts with lawsuits and economic boycotts.

World Health Organization has classified cell phone radiation as **class B carcinogen**. Cell phones emit high levels of electromagnetic (EMF) radiation directly into your head, actually heating it up in the process. There is increasing amounts of scientific evidence linking this to brain cancers.

Dr. David Carpenter, Dean at the School of Public Health State University of New York believes that up to 30% of all childhood cancers are associated with EMF exposure. Numerous studies have proved a reduction in melatonin, as well as higher levels of serotonin as a result of exposure to EMF.

COMMON PROBLEMS DUE TO EMF EXPOSURE

That's why it is essential to protect yourself and re-charge. Tensor Technology products can tune up your Bio field through a resonant effect that harmonizes your energy and helps you to navigate smoothly through a stressful world. Think of it like tuning forks that remind your Bio field of its optimal functioning state.

An introduction to Tensor rings

What it is:

- Tensor Rings are cut to a very specific length, which produces healing frequencies
- This technology is as old as Atlantis and ancient Egypt
- With a right-hand twist to a folded wire, and the ends closed back onto another, a counter-rotating vortex occurs. This vortex of energy "shines" out both sides, like an invisible flashlight beam.
- This energy is neither electric nor magnetic, it is known as a ***Tensor Field***
- It acts as transformer to unique cosmic energies and then draw this energy to the wire.

Benefits of Tensor Rings

There are actually numerous uses of tensor ring such as the following great advantages when using these tools:

- Protection from Radiation & EMF. Neutralizes cell phone radiation, electrical distribution systems, computers, appliances, radio signals, and other electromagnetic radiation polluters
- Stabilizes your body's natural frequency
- Neutralizes the harmful effects of geomagnetic frequencies
- Enhances plant growth and vitality;
- Improved taste occurs with re-structuring of water; Water changes from very acidic pH to neutral or slightly alkaline when left standing in the ring for 24-48 hours; it can purify water. It can potentate and neutralize chemicals in water by setting the bottle over and under the tensor ring

- Reports of calming severe nerve damage in wrists, thumbs, knees, and shoulders; Known to calm swelling and tension of injuries;
- Placing an object in the energetic column amplifies the object's vibratory energy;
- Utilized to increase meditative state.
- It can keep the swimming pool clean by placing the ring at the pump. It can also be used in shower head.
- Ideal for wellbeing and over health. It also relieves joint pains. It enhances healing process during illness or injury. It can mend bones in a faster way.
- Effective relief from mental as well as physical pain. It reduces stress.
- It decreases stress due to EMFs or harmful electromagnetic field.
- Ideal to use in agriculture, it can improve soil quality. Helps in production of quality and larger crops.
- The ring can also be buried to effectively eradicate harmful power line grids or what is commonly known as Hartman Grid.
- Very useful for reconnecting the physical and the spiritual realms
- Has positive effects on the physical, mental, emotional, and spiritual bodies
- Helps with Radionics work
- Clears Blockages and relieves pains
- Elevates Energy levels
- When it is placed at the car's back seat, the ring can infuse the spine while keeping it unharmed even if the car passes through geo-pathic stress lines.

Tensor Field Generator (Collapsible and can be worn like bracelet)

Made up of four Tensor-Rings, the Tensor field generator produces a sphere of influence in all directions and thus creates more of Tensor energy. This is a simple tool to use, as it automatically protects, transforms, and harmonizes. People have noted changes in neighborhoods, and people in general, with just this copper sphere in the home.

With intentions, your voice and touch, it is possible to Program the Tensor Power Generator to a truly healing Tensor tool in your life. It works as an amplifier of energies and intentions.

How to use the Tensor field Generator

The Tensor Field Generator can be used for many purposes and in different ways.

- ✓ Place the Generator in any space you wish to change the energy of. Use at your desk or in your locker or in the car. It Neutralizes unhealthy energy fields (such as EMF radiation, computer radiation, Wi-Fi, thoughts and emotions)
- ✓ In case of a headache, lay the TFG on your head
- ✓ In case of abdominal pain, place a TFG on the stomach
- ✓ In the case of joint pain, place a TFG over the painful joints
- ✓ Stimulate plant growth by placing a TFG with or around the plant
- ✓ Works very well for support during healing sessions
- ✓ A TFG at or under the bed for a better night's sleep
- ✓ Transform drinking water through a glass or put water in the TFG. There is also the possibility to do the TFG around the tap or water pipe
- ✓ Other uses include holding it in the hands for meditation, healing work on the body, placing crystals inside or underneath the Generator to broadcast their energetic qualities, or just leave it be and let it do its work!

Tensor ring $\frac{1}{4}$ Harmony cubit (Approx. dia -3.30 inches)

How to use

- Underneath and on top of fridge freezer, cooler, microwave, oven, as they all give off radiation and carbon monoxide
- Use as bracelet / Wear on Wrists to protect against radiation
- Under cushion or meditation mat whilst meditating or manifesting
- Water Tank underneath and on top
- Under food storage cupboard
- Place underneath plants pot or ideally bury in soil
- Under bed, pillows, mattress, sofa seats
- Place on each chakra when laying down meditating

Tensor ring 1/8 Harmony cubit (Approx. dia -1.66 inches)

How to use

- Wear as a pendant
- Place anywhere on frequency emitting appliances- Wi-Fi Routers, Laptops, TVs, Refrigerators. Simply place the ring on the source of the non-beneficial frequency, where it will automatically connect to and transform the frequency emitted. If you do not have access to the source of the frequency, having the ring anywhere in your field (as a pendant or in your pocket) will protect your field.

- On dog or cats collar if they suffer badly from radiation
- Protection from Non-beneficial Environmental Frequencies like HARP, Radionics, Satellite, Communication towers of all varieties, Geomagnetic and geopathic stressors, EMF emitting appliances

Tensor water ring (Approx. dia -3.10 inches)

Transform the quality of the water you drink!

Water is a crystal, it is conscious, and is a profound healer when used with intention and gratitude. Tensor fields connect with the physical of the water, balancing PH and raising it into a high vibration state.

The Water Rings connect with both the physical as well as the Elemental of water. It is this direct connection that allows an ease of communication with the water.

The Water Rings allow for direct communication with the water, to create healing elixirs **simply by speaking through the Ring to the water** and placing the ring around, under, or over the water. In as little as ten minutes you can notice a change. You can leave the ring around the water for at least eight hours for a total clearing and charging of the water.

How to use

You can use the Ring to communicate your needs and intentions to the water. This can be done by holding the Ring and either using your voice or intentions through the Ring to the water. Set your Ring under or around the water vessel for a few minutes or even overnight, and then drink the water.

Tensor Rings create a column of energy that reaches for some distance on both sides of the ring. The energetic column has the capacity to organize the space within the column. This includes organizing the molecular structure of water. The longer it sits inside the column, the more refined the structure becomes. Tensor Rings have an extremely high paramagnetic value, capable of spinning the ORMUS elements into their high spin state. This enhances the energetic value of water and helps it to hold its structure.
